- 10:15** GIT
- 11:15** GIT Practice
- 12:45** Lunch
- 13:15** Male Genitalia
- 13:45** Female Genitalia
- 14:15** Genitalia practice
- 15:15** Afternoon tea
- 15:30** Full Body Scan
- 17:00** Finish

## JANE DAY

BVSc MVS FANZCVS  
(Radiology) Specialist,  
Veterinary Radiology

Jane grew up on a large sheep and cattle property in Queensland, but decided to work in small animal practice. She worked for several years in general practice in Darwin, Canberra, Brisbane and the United Kingdom. After sitting the ANZCVS membership exams she worked in the radiology department at Queensland University and as a lecturer at James Cook University for several years. She did her residency at Oklahoma State University and Melbourne University and became a Fellow of the ANZCVS in 2015. She was at Murdoch University (Senior Lecturer) for several years and joined WAVES (Western Animal Veterinary Emergency and Speciality) in 2017. She also works part-time for Idexx teleradiology, which includes reporting on ultrasound studies submitted by practitioners. Jane is currently vice-president of the ANZCVS Radiology chapter and is a frequent examiner. She began doing echocardiography and abdominal ultrasound while in general practice and understands the joys and frustrations of scanning in this environment, and how to best advance your skills. Jane is passionate about continuing education, has extensive experience in teaching ultrasound, and has taught ultrasound workshops since 2007.

## ANNA GALLOWAY

BVSc(Hons) MACVSc

Dr Anna Galloway graduated with a BVSc(Hons) from the University of Queensland in 1981. After a few years in small animal and mixed practice, she joined the staff of the University of Queensland (UQ) as a small animal clinician. She started working in veterinary imaging in 1986 as a university tutor and gained MACVSc (radiology) in 1988. Anna continued working in imaging at UQ as a radiology registrar until 2011. She was granted extended study leave in the USA in 1992 to spend time developing ultrasound skills in veterinary schools in North Carolina, Colorado and California. She was a locum at The Animal Health Trust in Newmarket, UK, in 2005. She has been a membership examiner for the ACVSc on five occasions and was radiology chapter president for 3 years. Anna established Vethelp Diagnostic Imaging, a mobile diagnostic ultrasound practice servicing Brisbane and surrounding areas in 2011 and continues to enjoy teaching in addition to travelling to practices performing scans.
